Introduction

Hello everyone!

The Objective of today's presentation is to create UI screens that are informed by your Persona-Scenarios, Storyboards and Information Architecture

Individual UI Sketches:

Review of strengths and weaknesses

Lakshay:

Strengths:

- **Visually appealing.**
- **Easy to comprehend.**

Weakness:

- **Text is hard to read.**
- **Some interfaces have become too congested.**

Nitesh

Strengths:

- Have provided good features and details like government certification, Type of charity preference, and recommendations.
- Easy to use interface

Weakness:

- Text Heavy
- Too many details together at the screen at the same time and making it congested.
- Spaces between boxes is not uniformed.

Sahil

Strengths:

- Have provided good features and details like government certification, Type of charity preference, and recommendations.
- Easy to use
- Uniformly separated boxes

Weakness:

- Text size inconsistent
- Text oversized and outside phone

Utkarsh

Strengths:

- Highly interactive
- Easy to navigate
- Donor's dashboard well elaborated

Weakness:

- Inconsistent font size
- Receiver interface less elaborated

Divyanshu

Strengths:

- Simple interface

Weakness:

- Inconsistent alignment
- No shareholder profiles involved

Revised lo-fi UI prototype
